CONSPIRACY TO COMMIT MURDER

Japanese Strike Leaders in Hawaii.

ABLE TO THE PLANTERS.

Japanese of Hawaii had appealed to Tokio charging violation of treaty rights as an outsome of the strike agitation in the islands, is based upon the fact that one of the agitators arrested at Honolulu sent a cablegram to a brother living in Japan, requesting him to endeavor to gain the intercession of the government in his behalf. In spite of the fact that he knew it was useless, the brother conveyed the appeal to the government. A dispatch received here from the Japanese consul at Honolulu says the strike situation is improving and all the men in two districts have returned to work. The strike, the consul says, is a result of agitation on the part of Japanese anarchists, the worst element among the Japanese, who have been trying to persuade all their countrymen to join a union. They claimed, the dispatch further asserts, that they would be able to increase wages, but in reality their purpose was to collect money.

Continuing, the Japanese consul speaks highly of the attilude of the local plant.

Continuing, the Japanese consul speaks highly of the attitude of the local planters. He says also that after the arrest and conviction of the agitators, the condition of Japanese labor at Hawaii would be improved, but he is advising the planters not to yield and to insist that the planters not to yield and to insist that the men return to work without conditions. The affair is not regarded seriously in Teklo. The government today gave assurances that it had not interfered in the matter, and that it had not sent any instructions to the consul at Honolulu.
